

Nortal's Technical Physical Security and Insider Threat Solutions

Nortal's cutting-edge insider threat and physical security solutions are specifically designed to address the unique challenges faced by healthcare organizations. By integrating technology, policy, and human factors, we assist hospitals and healthcare providers in safeguarding sensitive assets, ensuring compliance with regulations such as HIPAA, and cultivating a culture of resilience.

Cybersecurity

Safeguarding Healthcare: Advanced Insider Threat & Physical Security

Healthcare organizations encounter distinct security challenges, requiring a delicate balance between safeguarding sensitive patient information and ensuring the physical safety of patients and staff. As insider threats and physical breaches continue to rise, it is imperative for hospitals and healthcare providers to implement proactive security measures to protect their operations.

Secure

- Identify Critical Infrastructure
- Risk Assessment
- Policy and Control Review

Fortify

- Access Control Systems
